

Appendix A

FORENSIC PAINT EXAMINATIONS BIBLIOGRAPHY **SORTED BY TOPIC**

A. BACKGROUND

1. Crown, D.A., The Forensic Examination of Paints and Pigments, Charles C. Thomas, Springfield, IL, 1968.
2. ASTM E1610-02 (2008), “Standard Guide for Forensic Paint Analysis and Comparison,” ASTM International, West Conshohocken, PA, 2005.
3. Forensic Paint Examination and Comparison Guidelines, Scientific Working Group for Materials (SWGMA), Forensic Science Communications, Vol.1, No. 2, July 1999. (available online at: <http://www.swgmat.org/Forensic%20Paint%20Analysis%20and%20Comparison%20Guidelines.pdf>)
4. Forensic Examination of Glass and Paint: Analysis and Interpretation, B. Caddy, ed., Taylor and Francis, NY, NY, 2001.
5. Thornton, J., “Forensic Paint Examinations,” Chapter 8, in Forensic Science Handbook, Vol. I, 2nd ed., Saferstein, R., ed., pp. 430-478, 2002.
6. Proceedings of the International Symposium on the Analysis and Identification of Polymers, U.S. Dept.of Justice, Federal Bureau of Investigation, Washington, DC, July 31- August 2, 1984, U.S. Government Printing Office, ISBN 0-932115-02-0, 1984.
7. Morgans, W.M., Outlines of Paint Technology, Vols. I and II, Charles Griffin & Company Ltd., London, 1982.
8. Martens, C.R., Waterborne Coatings: Emulsion and Water-Soluble Paints, Van Nostrand Reinhold Co., 1981.
9. Lambourne, R. and Strivens, T.A. Paint and Surface Coatings: Theory and Practice, 2nd ed., William Andrew Publishing, Norwich, NY, 1999.
10. Federation Series on Coatings Technology, Series I and Series II, Federation of Societies for Coatings Technology, Philadelphia, PA.
11. Ash, M. and Ash, I., Formulary of Paints and Other Coatings, Vol. I, Chemical Publishing Co., New York, NY, 1978.
12. Streitberger, HJ and Dossel, KF, Automotive Paints and Coatings, 2nd ed., Wiley -VCH Verlag GMBH & Co., KGaA, Weinheim, Germany, 2008.

B. EVIDENCE COLLECTION AND PRESERVATION

1. Scientific Working Group on Materials Analysis (SWGMA), “Trace Evidence Recovery Guidelines” available online at: <http://www.swgmat.org/Trace%20Evidence%20Recovery%20Guidelines.pdf>
2. Scientific Working Group on Materials Analysis (SWGMA), “Expert Reporting Guideline” available online at: <http://www.swgmat.org/Expert%20Reporting%20Guideline.pdf>

3. Kirk, P.L., Crime Investigation, Thornton, J.I., ed., 2nd ed., John Wiley & Sons, New York, NY, 1974; reprint edition, Robert E. Krieger Publishing Company, Inc., Malabar, FL, 1985.
4. DeForest, P.R., Gaenslen, R.E. and Lee, H.C., Forensic Science - An Introduction to Criminalistics, McGraw-Hill Book Co., New York, 1983, pp. 163-164.
5. Fisher, B.A.J., Svensson, A. and Wendel, O., Techniques of Crime Scene Investigation, 4th Ed., Elsevier, New York, pp. 146-149, 1987.
6. Fisher, B.A.J., Techniques of Crime Scene Investigation, 7th ed., CRC Press, Boca Raton, FL, 2004.
7. Houck, M.M. and Siegel, J.A., Fundamentals of Forensic Science, Elsevier Academic Press, Burlington, MA, 2006.
8. Saferstein, R., Forensic Science from the Crime Scene to the Crime Lab, Pearson Prentice Hall, Upper Saddle River, NJ, 2009

C. PAINT EXAMINATION (GENERAL)

1. Kirk, P.L., "Paint," Chapter 21, in Crime Investigation, Second Edition, Robert Krieger Publishing Company, Inc., Malabar, Florida, 1974. (First ed., 1953, John Wiley & Sons, Inc.)
2. Thornton, J.I., "Forensic Paint Examination," Chapter 10, in Forensic Science Handbook, Vol. I, Saferstein, R. (ed.), Prentice-Hall, Inc., Englewood Cliffs, NJ, pp. 529-571, 1982.
3. Thornton, J.I., "Forensic Paint Examination," Chapter 8, in Forensic Science Handbook, Vol. I, second edition, Saferstein, R. (ed.), Prentice-Hall, Inc., Upper Saddle River, NJ, pp. 429-478, 2002.
4. Nielsen, H.K.R., "Forensic Analysis of Coatings," Journal of Coatings Technology, Vol. 56, No. 718, pp. 21-32, Nov. 1984.
5. May, R.W. and Porter, J., "An Evaluation of Common Methods of Paint Analysis," Journal of Forensic Sciences, 15 (2), 1975, pp.137-146.
6. Tippett, C.F., et al, "The Evidential Value of the Comparison of Paint Flakes from Sources other than Vehicles," Journal of the Forensic Science Society, 8 (2, 3), pp. 61-65, 1968.
